About Varna Airport

Varna Airport is an international airport that serves the Northeast part of Bulgaria and provides convenient links to major airports such as Istanbul, Sofia, Vienna, Moscow, Belgrade and Tel Aviv. The airport is situated on the Northern Black Sea coast, about 8 km outside the city of Varna. Varna is a major tourist destination, a starting point for all resorts in the northern Bulgarian Black Sea Coast, an important business and university centre, seaport, and headquarters of the Bulgarian Navy and merchant marine.

Its favorable geographical location, the combination of air, sea, railway junction and road transportation, provides opportunities for intermodal traffic and allows for a significant number of tourism flights during the summer season, as well as regular airline routes throughout the year.

About Fraport Twin Star Airport Management AD

Fraport Twin Star Airport Management AD is a German-Bulgarian company – concessionaire of the Burgas Airport and Varna Airport. The company manages and develops both Black Sea airports, by investing in the expansion and modernization of infrastructure and the improvement of all technical equipment, which leads to a higher level of technologies, training and qualification of staff. The two new terminals which welcome passengers since 2013 offer spacious areas for arriving and departing passengers, modern passenger and baggage processing systems, as well as attractive retail options. At both airports the company handles approximately 3,9 million passengers and 31,000 flights for more than 90 Bulgarian and international airline companies, servicing charter and regular flights to over 259 destinations in Europe, Asia and Africa.

Fraport Twin Star Airport Management AD benefits from the expertise of Fraport AG – operator of Frankfurt Airport, as one of the leading groups of companies in the international airport business, as well as from the network of airports, managed by Fraport AG, as Antalya, St. Petersburg and Lima.
